General insurance information

Insurance is payable on

Residential construction work of a value of more than \$3,300 (including GST) comprising:

- Construction of a house, duplex, townhouse, villa unit or any residential building up to three (3) storeys in height (above a car park) or any residential outbuilding e.g. garage, pool change room etc. One premium per unit is applicable. This description includes residential units within a mixed residential/commercial construction, but only the residential component is insurable.
- Replacement of or extension to part or all of a building which affects internal or external walls, including windows or doors, roofs, floors, foundations or ceilings, and includes refitting bathrooms or kitchens eg. patios and decks, kitchen and bathroom renovations, re-roofing, cladding, new windows and doors etc.

Full value of work

The value of work includes all labour, materials and GST. This also includes associated work such as landscaping, driveways, pool fences, retaining walls etc performed under the contract.

To calculate premium

Refer to the Premium Chart available at www.qbcc.qld.gov.au or at your local QBCC office.

Residential/commercial mix

Insurance is payable on the residential units within a mixed residential/commercial construction up to three storeys above a car park, but only on the residential component.

The premium is calculated using the total contract price reduced by the proportion of occupiable floor space to be used for commercial purposes. To enable the correct premium to be calculated, you must provide the total floor area and the amount of residential floor area in the boxes shown on the other side of this form.

To calculate premium for multiple units

For Residential/Commercial mix, commence at Step 1A. For all other multiple units, commence at Step 1B.

Step 1A	<input type="text"/>	÷	<input type="text"/>	×	<input type="text"/>	=	<input type="text" value="A"/>
	Residential floor area		Total floor area		Total contract value		Contract value of residential floor area
Step 1B	<input type="text" value="A"/>	÷	<input type="text"/>	=	<input type="text" value="B"/>		
	Contract Value		Number of units		Average unit value		
Step 2	<input type="text" value="B"/>	>	Find premium from chart*	=	<input type="text" value="C"/>		
	Average unit value				Insert insurance premium per unit		
Step 3	<input type="text" value="C"/>	×	<input type="text"/>	=	<input type="text" value="TOTAL"/>		
	Insurance premium per unit		Number of units		Total premium payable		

* The premium rate is inclusive of GST

Payment options

In person - you can pay in person at one of our Service Centres. Payment can only be made by the licensee, who must produce a contractor's licence as identification.

Call QBCC - on 139 333.
