BE CONSTRUCTIVE CAREERS EXPO 2008

The 2008 Be Constructive® Careers Expo will be held at Robina Town Centre, September 5-6.

This year the Expo takes on an exciting new format - in what we believe is a Queensland first, the 2008 Expo will be held around an actual construction site. Thanks to the support of Robina Town Centre and the construction project managers, Bovis Lend Lease, attendees will be able to view some of the Centre's new and exciting retail facilities being built, as well as interact amongst a range of hands-on construction displays and information booths.

The Expo's hands-on nature will again help demonstrate to career seekers how they can progress in trades and diplomas as well as associated employment opportunities.

Over the past five years the Expo has enjoyed immense success and involvement from a large number of construction companies, building and trade associations, Try'a Trade®, technical colleges, Australian apprenticeship centres and group training organisations.

Friday 5 September will be predominantly for school students, deciding which career path they wish to pursue. The Be Constructive® Careers Expo organisers have arranged buses to transport them to and from Robina Town Centre. Existing building and construction workers as well as general public are welcome to attend the Expo.
