CCAA Guide to Residential Concrete Driveways and Paths

As part of their research commitment to industry, Cement Concrete and Aggregates Australia (CCAA) has produced an easy to use guideline called "Residential Concrete Driveways and Paths".

Builders, supervisors, concreters, carpenters and other trades, whose work relates to concrete driveways and paths, should be familiar with industry standards referred to in this CCAA guideline.

The direct link to access and copy this document is:

- <http://www.concrete.net.au/viewpdf.php?pdffile=pdf/Driveways.pdf>

By 'getting it right first time' building contractors do not have to lose time and money by being called back to the job.
