Changes to Brisbane City Council Hoardings and Gantries Application Permits

12 November 2004

BCC's Development & Regulatory Services department is currently implementing a new IT system in order to provide improved and more consistent customer service.

In support of the new system, BCC is streamlining the processes you follow when applying for permits required to carry out your day to day work.

The changes will roll out over the next 12 months with the first change affecting the way you apply for and receive Hoardings and Gantries permits.

Currently Hoardings and Gantries permits can be issued on-site.

Following the 22 November 2004, BCC officers will no longer be able to issue permits in the field and applicable fees will need to be paid in full before permits are issued.

For further information on how to apply for a Hoardings and Gantries permit please phone BCC's Contact Centre on 3403 8888 or drop into one of Council's Regional Business Centres.
