CATEGORIES OF NOTIFIABLE WORK

Information only:

Public Sector Entity—Your plumber or drainer must notify the QBCC of the work undertaken at your property.

– Categories of notifiable work are listed in Schedule 2 of the Standard Plumbing and Drainage Regulation 2003 and provided below.

– For further information, contact QBCC on 139 333.

- 1 emergency work
- 2 work necessary for extending, altering, replacing or removing existing water supply piping, other than extending or removing a fire service
- 3 work necessary for extending or removing a fire service if the work is associated with a building development approval as defined under the Building Act 1975, schedule 2
- 4 work necessary for extending, altering, replacing or removing existing sanitary drainage, other than a combined sanitary drain, for a building classified under the Building Code of Australia (BCA) as a class 1 or 10 building
- 5 work necessary for extending, altering, replacing or removing existing sanitary plumbing for a building classified under BCA as a class 2 to 9 building
- 6 work necessary for installing, replacing or removing a temperature control device
- 7 work necessary for installing, replacing or removing a water heater
- 8 work necessary for installing, replacing or removing a testable backflow prevention device
- 9 work necessary for installing, replacing or removing a dual check valve with an atmospheric port
- 10 work necessary for replacing a greywater treatment plant for a building classified under BCA as a class 1 building
- 11 work necessary for installing a fixture in a building classified under BCA as a class 1 building
- 12 work necessary for relocating a fixture in a building classified under BCA as a class 1 building
- 13 work, other than work for sanitary drainage, necessary for installing or relocating a fixture in a building, classified under BCA as a class 2 to 9 building, of 1 or 2 storeys
- 14 work necessary for installing or relocating a fixture in a building, classified under BCA as a class 10 building
- 15 work necessary for sealing a sanitary drain upstream from the connection point for a service provider's sewerage system
- 16 work necessary for sealing an existing water service downstream from a water meter for a building classified under BCA as a class 2 to 9 building
