Free Trade Specific Seminars for BSA Licensees

BSA wants to talk with you about what we do, why we do it and how we can work together.

Come to one of BSA's FREE seminars and learn about our processes and changes that may affect the way you run your jobs.

During the first half of the seminar you will hear about trade-specific standards and regulations, see demonstrations of best practise methods and be advised how to avoid construction pitfalls.

In the second half of the seminar you will get the low-down on contractual requirements; find out how to recover progress payments quickly and cheaply; and learn how to work through the dispute resolution process.

2008 Dates and Trade-Specific Content:

September 24 - Supervision - Residential, Commercial and BSA's new Site Supervisor Licence Class

October 22 - Internal Waterproofing

November 19 - Water Penetration into Buildings / Common Defects

All seminars are on a Wednesday.
