Safety Management – Contractor Only

Do you have a safety management system to ensure work to be carried out under the contractor’s licence is performed safely and is otherwise compliant with your obligations under the *Work Health and Safety Act 2011*. Yes No

If you have answered No, please provide an explanation why.

Note: You must create a safe workplace. The construction industry involves a range of high risk work activities that must be appropriately managed to ensure they are carried out safely. Important information to assist employers and business owners to understand their safety obligations and implement an appropriate safety management system can be found at worksafe.qld.gov.au. A Safety Management System (SMS) captures how you intend to exercise your due diligence obligations, managing WHS elements which can vary over time and assuring safety across, and affected by, your entire business. It differs to a site safety plan. For SC1 licensees it may only need to be simple and summarise how you engage in your work safely. An SMS is scalable so it can be tailored to the size and complexity of your business, and the building work being performed or carried out.
