

HELP US TO HELP YOU

Top photo tips to describe your building work issue

Use reasonable lighting

Natural light

Add a light source

Avoid shadows

Provide scale

A tape measure is very effective, alternately you can use objects to indicate scale

Wide and focused view

Wide view for context

Focused view for detail

SAFETY FIRST

Never put yourself in harm's way for a photo. Nothing is worth risking harm.

Please don't risk your safety climbing up on roofs or hanging out of windows.
