

# HELP US TO HELP YOU

Top photo tips to describe your building work issue

## Use reasonable lighting

Natural light

Add a light source

Avoid shadows

## Provide scale

A tape measure is very effective, alternately you can use objects to indicate scale

## Wide and focused view

Wide view for context

Focused view for detail

## SAFETY FIRST

Never put yourself in harm's way for a photo. Nothing is worth risking harm.

Please don't risk your safety climbing up on roofs or hanging out of windows.
