PRELIMINARY CONSIDERATIONS FOR NATURAL DISASTER REPAIRS

If your repair work arises from a flood, severe storm or cyclone, there may be a number of important preliminary steps you need to take before repair work can commence. While you may, understandably, be eager to move back quickly into your home, especially if you and your family are staying in temporary alternative accommodation, **it is very important for the long term integrity of your property that you do not attempt to rush or cut corners with these initial procedures.** The contractors you will engage have a legal responsibility to perform their work in accordance with all relevant laws and legal requirements, including the *Building Act 1975*. Some preliminary considerations may include:

- Soon after the natural disaster has safely passed, and **before engaging a contractor to commence repairs, you should urgently contact your home property and contents insurer to determine what you are covered for and what assistance they can provide** (e.g. rental assistance for temporary accommodation). **Your insurer may have procedures they require you to follow or preferred contractors** they will engage and pay on your behalf to perform the work.
 - Try to accurately document the extent of the damage and your losses (take photos if possible).
 - If you make an insurance claim and are unhappy with your insurer's response you should in the first instance contact the Customer Complaints section and ask for your complaint to be dealt with in accordance with the company's internal Dispute Resolution processes. If this does not produce a satisfactory outcome you may wish to contact and lodge a complaint with the Financial Ombudsman Service (FOS – most major banks and insurance companies are member organisations) at telephone 1800 367 287 or via their website at www.fos.org.au.
 - Financial assistance may also be available from other sources such as your home mortgage provider, State or Commonwealth Government grants or from funds provided by public donations or charitable organisations.
 - If funds/grants from such sources will be used to pay for all or part of your repair work, **it is very important that you obtain written confirmation of this financial support, and an authority to proceed with repairs**, from the finance provider **and provide a copy to the contractor before signing the repairs contract.**
 - Even if your insurer is paying for the repairs, you should receive a hard copy of the repair contract (or access to an electronic version) which should include your name, the contractor's name and licence number, the site address, a description of the contracted work and the contract price.
 - Inspections by properly qualified/licensed professionals** (e.g. an electrician, engineer, gas fitter, plumber or builder) **may be required to confirm the safety of the property.**
 - Appropriate protective gear (e.g. gloves, face masks, full length clothing, closed-in shoes) should be used and extreme care taken when removing debris as the site may be contaminated with toxic mud and water, sharp objects, etc. washed in from other areas. Any injuries should be quickly cleaned and promptly checked by a doctor.
 - If your property may have asbestos material** (e.g. in the ceiling or walls or under the floor coverings), **you should not under any circumstances attempt to remove the asbestos yourself but engage properly qualified professionals to do so (see asbestos removal and work safety information on the Department of Justice website www.health.qld.gov.au/asbestos).**

NOTE: Cleaning and drying of the building and surrounding site may be a lengthy process, especially if the site has been under water for a long period. Timber experts suggest that in some cases it may take several months for timber frames to fully dry out and reach the appropriate level of moisture content which can only be accurately checked with special equipment. If the frame is not properly dry or the footings are compromised, major problems with the structure may surface months later.
 - Depending on the nature and extent of the damage, the structural integrity of the footings, frame, roof, etc. and the status of electrical wiring and plumbing may need to be professionally checked before any repair work can commence.
 - For further information and advice about building issues and procedures relevant to the natural disaster which has impacted your property, you should consult building professionals or relevant industry bodies.
- When these checks and preliminaries have been carried out and the property is ready for repairs to commence, **you should attempt to obtain at least 2 (preferably 3) written quotes from currently and appropriately licensed contractors** (your home property insurer may help you obtain quotes or they may appoint a particular builder for your project). When obtaining quotes, be sure to confirm the contractor's licence and check their history using the Licensee Search facility on the QBCC website. **NOTE: Quotes are not a substitute for a proper contract** but they will give you a rough idea of the likely range of repair costs and the availability of contractors.

- (a) the date on which **work under this Contract** commenced on **Site**; and
 - (b) the **Date for Practical Completion**.
- 15.3 The Contractor must diligently carry out the **work under this Contract** and must not, except as permitted by this Contract, delay, suspend, or fail to maintain reasonable progress in the performance of that work.

16. Assignment and subcontracting

- 16.1 The Contractor must not assign this Contract or the **work under this Contract** without the prior written consent of the Owner.
- 16.2 The Contractor may subcontract parts of the **work under this Contract** to appropriately licensed tradespersons, but the Contractor remains liable to the Owner for the **work under this Contract**.

17. Payment

- 17.1 The Owner must pay the Contractor the **Contract Price** for the **Works** calculated and adjusted as provided by this Contract in accordance with the provisions of this Condition.
- 17.2 The Owner must pay the Contractor the deposit (if any) stated in Schedule Item 2 upon the signing of this Contract.
- 17.3 After receiving the deposit (if any), the Contractor is entitled to claim either:
- (a) one Lump Sum Payment as stated in Schedule Item 8(a) upon completion of the **Works**; or
 - (b) a Progress Payment when the Contractor has achieved completion of each of the payment stages set out in Schedule Item 8(b) which claim shall consist of the percentage of the **Contract Price** applicable to that stage as set out in Schedule Item 8(b).

- 17.4 Payment claims under Condition 17.3 shall be subject to the following adjustments (if applicable):
- (a) an adjustment for any **Prime Cost Item** incorporated in the **Works** to that stage, and not included in a previous Progress Payment, such adjustment being an increase or decrease to the relevant stage payment as set out in Schedule Item 8 depending on whether the final cost of the **Prime Cost Item** is more or less than the amount allowed and stated in the *Prime Cost Items Schedule*; and
 - (b) an adjustment for the value of any **Provisional Sum** Item completed to that stage and not included in a previous Progress Payment, such adjustment being an increase or decrease to the relevant stage payment as set out in Schedule Item 8 depending on whether the final cost of the **Provisional Sum** Item is more or less than the amount allowed and stated in the *Provisional Sums Schedule*; and
 - (c) an increase to the relevant stage payment in respect to an amount payable under an agreed Variation Document where the variation work has been completed and for which payment has not previously been made; and
 - (d) a decrease in the relevant stage payment in respect to an agreed variation which reduces the **Contract Price**.
- 17.5 Any such adjustments referred to in Condition 17.4 shall be recorded by the Contractor on the Form 3 - *Progress Claim* or similar appropriate document and the relevant progress claim shall be adjusted accordingly.
- 17.6 The QBCC Form 3 - *Progress Claim* or similar appropriate document must be accompanied by a QBCC Form 4 - *Notice of Dispute of Progress Claim* or similar appropriate written notice and any certificates of inspection relevant to the payment stage.
- 17.7 The progress claim for the **Practical Completion Stage** must, in addition to the requirements specified for any other progress claim, be accompanied by a completed and signed QBCC Form 6 - *Defects Document* and QBCC Form 7 - *Certificate of Practical Completion*, or similar appropriate documents.
- 17.8 The Contractor must make all reasonable efforts to have the Owner sign the QBCC Form 6 - *Defects Document* or similar appropriate document used to record the minor defects and minor omissions.
- 17.9 Except in regard to the Progress Payment for the **Practical Completion Stage** payable in accordance with Condition 27.5, the Owner must pay the Contractor the Progress Payment, or so much of the relevant claim for Progress Payment as is not disputed by the Owner, within 5 **business days** of receipt of the relevant claim.
- 17.10 If the Owner disputes the relevant claim for Progress Payment or any part of it, the Owner must, within 5 **business days** of receipt of the relevant claim, give to the Contractor a completed and signed QBCC Form 4 - *Notice of Dispute of Progress Claim* or similar appropriate written notice stating the reasons for so disputing the claim or part of it.
- 17.11 If the dispute is not resolved by the parties within 5 **business days** of the receipt by the Contractor of the notice of the dispute, the dispute must be referred for resolution in accordance with Condition 24.

18. Interest on overdue payments

The Owner must pay the Contractor interest on overdue payments at the rate set out in Schedule Item 11 or at the Commonwealth Bank of Australia Standard Variable Rate applicable to home loans at the time the payment becomes overdue plus 5% per annum (the 'default rate'), whichever is the lesser rate. If no amount is entered in Schedule Item 11 the default rate shall apply.

19. Variations

- 19.1 The **work under this Contract** may be varied by way of an increase, decrease or substitution of **work under this Contract** agreed between the Contractor and the Owner in a written Variation Document provided that, before work commences and before any additional payment is sought, the details of the variation are put in a written Variation Document agreed in writing by both parties.
- 19.2 The Contractor shall not commence work on a variation or be entitled to any payment in respect of a variation unless the variation is documented in accordance with Condition 19.3 and Condition 19.4.
- 19.3 The Variation Document may be a QBCC Form 5 - *Variation Document*, or other similar appropriate document, with the particulars completed in accordance with the requirements of Schedule 1B of the QBCC Act, agreed in writing by both parties.
- 19.4 The Variation Document complies with the requirements of Schedule 1B of the QBCC Act if it:
- (a) is readily legible; and
 - (b) describes the variation; and
 - (c) states the date of the request for the variation; and
 - (d) if the variation will result in a delay affecting the subject work - states the Contractor's reasonable estimate for the period of delay; and

- (e) states the change to the **Contract Price** because of the variation, or the method for calculating the change to the **Contract Price** because of the variation; and
 - (f) if the variation results in an increase in the **Contract Price** – states when the increase is to be paid; and
 - (g) if the variation results in a decrease in the **Contract Price** – states when the decrease is to be accounted for.
- 19.5 The Contractor must give the Owner a readily legible signed copy of the Variation Document within 5 **business days** after the variation is agreed and before the variation work is commenced.
- 19.6 The Contractor must not seek an increase in the Contract Price due to a variation until after the variation work has been completed.

20. Latent condition

The Contractor shall have no entitlement to claim a price increase or an extension of time due to a **Latent Condition** unless, on becoming aware of the **Latent Condition**, and prior to commencing work to address the **Latent Condition**, the Contractor gives the Owner written notice of the **Latent Condition** in QBCC Form 5 – *Variation Document* and/or QBCC Form 2 – *Extension of Time Claim & Owner's Response to Claim*, as the case may be.

21. Time for Practical Completion

- 21.1 The Contractor must achieve **Practical Completion** of the **Works** by the **Date for Practical Completion** stated in or calculated in accordance with Schedule Item 7 or any extended date under Condition 22.

22. Extension of time

- 22.1 Subject to complying with Condition 22.2, the Contractor may only claim and is entitled to a reasonable extension of the **Date for Practical Completion** if:
- (a) the need for the extension of time arises because of one or more of the following causes of delay prevents the Contractor from achieving **Practical Completion** by the **Date for Practical Completion**:
 - (i) a variation complying with Condition 19; or
 - (ii) a delay caused by the Owner or the **Owner's Authorised Representative**; or
 - (iii) a delay event stated in Schedule Item 6B which exceeds the stated allowance; or
 - (iv) another cause of delay which is not reasonably foreseeable and beyond the reasonable control of the Contractor; and
 - (b) the claim is made to the Owner in writing using a QBCC Form 2 – *Extension of Time Claim and Owner's Response to Claim* or similar

appropriate document with the particulars, including the cause of the delay and the extension of the **Date for Practical Completion** claimed, completed; and

- (c) the claim is given to the Owner within 10 **business days** of the earlier of the Contractor becoming aware of the cause and extent of the delay and when the Contractor reasonably ought to have become aware of the cause and extent of the delay; and
 - (d) the Owner approves the claim in writing using the QBCC Form 2 – *Extension of Time Claim and Owner's Response to Claim* or similar appropriate document .
- 22.2 The Contractor must take all reasonable steps to lessen the effect and duration of any delay.
- 22.3 The Contractor must give the Owner a signed copy of the claim for an extension of time within 5 **business days** of the Owner approving the claim.
- 22.4 The Owner must, within 10 **business days** of receiving the Contractor's claim, reasonably assess and return to the Contractor the said QBCC Form 2 – *Extension of Time Claim and Owner's Response to Claim* or similar appropriate document either agreeing to the extension of time claimed or giving reasons for the rejection of the whole or part of the said claim, failing which the said extension of time claim will be deemed to be disputed by the Owner.
- 22.5 Delay or failure by the Owner to agree to an extension of time does not cause the **Date for Practical Completion** to be set at large, but the Contractor shall be entitled to damages arising from the unreasonable rejection of all or part of a claim for an extension of the **Date for Practical Completion**.

23. Liquidated damages

- 23.1 If the Contractor fails to achieve **Practical Completion** of the **Works** by the **Date for Practical Completion**, then the Contractor must pay to the Owner liquidated damages calculated at the rate provided in Schedule Item 9.
- 23.2 If Schedule Item 9 is left blank, a default amount of \$50 per day shall be deemed to apply.
- 23.3 Liquidated damages may only be deducted by the Owner from the amount payable to the Contractor in respect of the **Practical Completion Stage**. If the Owner's entitlement to liquidated damages exceeds the amount payable to the Contractor for the **Practical Completion Stage**, the excess may be recovered by the Owner as a debt due to the Owner by the Contractor.

WARNING TO OWNER

The entitlement to claim, and the amount to be deducted, for liquidated damages must be assessed carefully and in accordance with the Contract. Any valid extensions of time must be taken into consideration when calculating the number of days of liquidated damages which can be claimed.

24. Dispute resolution

- 24.1 If a dispute under the Contract arises between the parties, either party may give the other party a written notice of dispute adequately identifying and providing details of the dispute.
- 24.2 If the dispute is not resolved within 10 **business days** of the receipt of the notice of dispute, either party may refer the matter to a dispute resolution process administered by the Queensland Building and Construction Commission (QBCC).
- 24.3 A party will not commence any proceedings in respect of the dispute in any court or tribunal of competent jurisdiction until the dispute resolution process administered by the QBCC referred to in Condition 24.2 is at an end.
- 24.4 Where a dispute has arisen under or in connection with this Contract, including Condition 22.4, the Contractor must proceed diligently with the **work under this Contract** notwithstanding the existence of the dispute.

25. Termination after notice of default

- 25.1 If:
- (a) a party is in substantial breach of this Contract; and
 - (b) the other party gives a notice to the party in breach identifying and describing the breach and stating the intention of the party giving notice to terminate the Contract if the breach is not remedied within 10 **business days** from the date notice is given in accordance with Condition 29; and
 - (c) the breach is not so remedied,
- then, the party giving that notice may terminate this Contract by a further written notice given to the party in breach and may recover from the party in breach all damages, loss, cost or expense occasioned to the party so terminating by or in connection with the breach or that termination and may set off such claim against payment otherwise due by the party so terminating.
- 25.2 The right to terminate under this Condition is in addition to any other powers, rights or remedies the terminating party may have.
- 25.3 **Substantial breach by the Owner** includes, but is not limited to:

- (a) failing to produce evidence satisfactory to the Contractor of the Owner's capacity to pay the **Contract Price** in compliance with Condition 5 of this Contract;
- (b) failing to pay any money due and owing to the Contractor for more than 10 **business days** from receipt of the relevant claim; and
- (c) substantially or persistently obstructing the Contractor in the performance of the **work under this Contract**.

25.4 **Substantial breach by the Contractor** includes, but is not limited to:

- (a) failing to comply with any necessary approvals associated with the **work under this Contract**;
- (b) failing to provide materials which comply with this Contract;
- (c) unreasonably failing to replace or remedy defective work or materials;
- (d) unreasonably failing to perform the **work under this Contract** diligently or unreasonably delaying, suspending or failing to maintain reasonable progress;
- (e) failing to effect or maintain any insurance required by this Contract;
- (f) failing to hold the current, active and appropriate licence required to perform the **Works**, including, without limitation, a licence required under the QBCC Act; and
- (g) the Contractor failing to pay a judgement debt.

26. Termination for bankruptcy or liquidation

Notwithstanding Condition 25, should either party be made bankrupt or, being a company, go into liquidation, then the other party may, by giving a written notice, immediately terminate the Contract.

WARNING TO OWNER AND CONTRACTOR

New legislation effective from 1 July 2018 makes it illegal to terminate a contract with a company solely because they have gone into voluntary administration, appointed a receiver/managing controller or entered a scheme of arrangement with creditors. For this reason (and the probable loss for Owners of non-completion protection under the Qld Home Warranty Scheme if you terminate your Contract incorrectly), **it is very important that you obtain formal legal advice before terminating the Contract for any reason.**

27. Practical Completion

- 27.1 The Contractor must give to the Owner 5 **business days** prior written notice of the date upon which the Contractor anticipates that the **Works** will reach **Practical Completion**.
- 27.2 On the date specified in that notice as the anticipated date on which the **Works** will reach **Practical Completion**, the Owner or the **Owner's Representative** will inspect the **Works** and if satisfied that the **Works** have reached **Practical Completion**, and if the Contractor produces to the Owner satisfactory written evidence that all relevant inspections and approvals required by the *Sustainable Planning Act 2009* and the *Building Act 1975* and by any body having the relevant jurisdiction have been satisfactorily completed, the Contractor must:
- complete and sign the QBCC Form 6 - *Defects Document* or similar appropriate document identifying minor defects and minor omissions and give a copy to the Owner; and
 - give the Owner a completed and signed QBCC Form 7 - *Certificate of Practical Completion* stating that date as the **Date of Practical Completion**; and
 - hand over the **Works** to the Owner.
- 27.3 If the Owner considers that the **Works** have not reached **Practical Completion** the Owner must give the Contractor written notice of those matters which are required to be done for the **Works** to reach **Practical Completion**. The Contractor must carry out such matters as may be necessary for the **Works** to reach **Practical Completion** and must otherwise proceed in accordance with the preceding paragraph.
- 27.4 The issue of a Certificate of **Practical Completion** does not constitute approval of any **work under this Contract** nor does it prejudice any claim by the Owner in respect of the **work under this Contract**.
- 27.5 When the Contractor has satisfied all of its obligations under Condition 27.2 the Owner must immediately pay the Contractor the progress claim for the **Practical Completion Stage** (as adjusted under Condition 23, if applicable).

28. Defects after completion

- 28.1 The Contractor must make good defects or omissions in the **work under this Contract** which become apparent to the Owner within 12 months of the **Date of Practical Completion**.
- 28.2 If there are any such defects or omissions, the Owner must, as soon as practicable after becoming aware of the defects or omissions, give the Contractor written notice to make good such defects or omissions and must give the Contractor reasonable

access to the **Site** for that purpose.

- 28.3 Subject to reasonable access being provided, the Contractor must, within 28 calendar days of the notice being given, rectify any defects or omissions notified to the Contractor under Condition 28.2 during usual business hours.

29. Notices

- 29.1 Any notice under this Contract must, unless otherwise stated, be given in writing and sent to the party to whom the notice is to be given at the address stated in the Schedule, or such other address as is subsequently advised in writing, in one of the following ways:
- delivered to the other party by hand; or
 - delivered by prepaid post to the address noted in the Schedule; or
 - sent by facsimile to the facsimile number noted in the Schedule; or
 - sent by email to the email address noted in the Schedule.
- 29.2 Any notice sent by post is deemed to be given at the time when by the ordinary course of post it would have been delivered.
- 29.3 Any notice sent by facsimile is deemed to be given at the time when a valid transmission report is received by the sender.
- 29.4 Any notice sent by email is deemed to be given in accordance with the following provisions:
- the notice is deemed given at the time the email is sent provided it is sent before 5.00pm on a **business day** at the place of receipt and otherwise on the next **business day** at the place of receipt, provided:
 - the sender's computer or email account does not receive a message that the email has not been delivered (including an 'out of office' message); and
 - the email has been received fully and in legible form by the receiver; and
 - the receiver has not advised the sender in writing that a notice cannot be given to them by email for the stated period.

CONSUMER BUILDING GUIDE

Your contractor must give you this guide before you sign a contract priced at or over \$20,000

This guide has been developed by the QBCC in accordance with Schedule 1B of the *Queensland Building and Construction Commission Act 1991* ('the Act') to assist home owners undertaking domestic building work with a contract price of \$20,000 or more. It's aimed at helping you avoid disputes and common pitfalls.

COOLING-OFF PERIOD

You may withdraw from the contract within 5 business days after the day you receive copies of both the signed contract (including any plans and specifications) and this guide. However, there are costs for home owners in withdrawing (generally \$100 plus any out-of-pocket expenses reasonably incurred by the contractor up to the time of withdrawal). You must advise the contractor in writing that you are withdrawing under the cooling-off provisions in section 35 of Schedule 1B of the QBCC Act.

QBCC LICENCE

You should **only deal with a QBCC-licensed contractor**. If you engage an unlicensed contractor, your building work may not be covered under the Queensland Home Warranty Scheme. **Before committing, check the contractor's licence and history via the Online Licence Search on the QBCC website or by calling the QBCC.**

QLD HOME WARRANTY SCHEME

Residential construction work valued at more than \$3,300 is covered by the Queensland Home Warranty Scheme. The Scheme provides protection for home owners against non-completion, defective work and subsidence for up to 6 years from completion, provided a licensed contractor performs the work. The building contractor must collect the premium from the owner and pay it to the QBCC within 10 business days after the date the contract was entered into or before the contracted work is started (whichever is earlier). You should receive an email with a Notice of Cover and links to important information about the cover provided within 2 weeks of signing the contract.

WARNING – COST PLUS AND CONSTRUCTION MANAGEMENT CONTRACTS

QBCC strongly recommends home owners obtain formal legal advice before signing either of these types of contracts which increase your legal risk, reduce your Home Warranty Scheme protection and often result in disputes and cost overruns.

COMMENCEMENT NOTICE

For contracts priced at \$20,000 or more, the contractor must give the owner a signed Commencement Notice within 10 business days of work commencing on site. The Notice must state the date work started on site and the Date for Practical Completion.

CONTRACT PRICE

For contracts priced at \$20,000 or more, the contract price, if fixed, must be shown prominently on the first page of the contract schedule. If the contract price is not fixed, the method for calculating it, including any allowances, must be stated in the contract schedule. Allowances (items or services for which the price is not fixed when the contract is signed) should be kept to a minimum as the final cost often exceeds the estimate in the contract. The contract must also contain a warning about any provisions that may alter the contract price.

DEPOSIT LIMITS

The maximum deposit allowed (before work starts on site) is:

- 10% where the total contract price is less than \$20,000
- 5% where the price is \$20,000 or more
- 20% for a contract of any price where the value of the work to be performed off-site is more than 50% of the total contract price.

PROGRESS PAYMENTS

After the deposit is paid, owners and contractors are free to choose the number and timing of progress payments (if any) for their project, provided the amount claimed is directly related to work progress on site and proportionate to (or less than) the value of the work that relates to the claim.

BUILDING APPROVALS AND INSPECTIONS

Building inspections and approvals are the responsibility of a building certifier. Mandatory building inspections may be required at certain stages of construction. The contractor must give you copies of any certificates of inspection as soon as practicable after they receive them from the certifier. You can check the certifier's licence via QBCC's Online Licence Search.

VARIATIONS

Any change to the materials used or work to be performed under the contract is known as a 'variation'. Variations are frequently the cause of cost overruns and building disputes. **All variations must be agreed in writing by the home owner before the variation work commences** and any price increase due to the variation can not be required to be paid until the variation work is started.

DISPUTE PREVENTION

To reduce the risk of a dispute, carefully check and be sure you understand the contract, including any plans and specifications, before signing. Discuss any questions with your contractor and seek independent legal advice if you still have concerns. Once construction starts, maintain regular communication and, where possible, site inspections with your contractor and pay promptly when required under the contract.

DISPUTE RESOLUTION

If a dispute with your contractor occurs, firstly advise them in writing giving them a reasonable time to respond. If this doesn't resolve the problem, explore QBCC's free Early Dispute Resolution (EDR) service and your legal options. **QBCC recommends you obtain independent legal advice before terminating the contract. Incorrect termination may have serious legal and financial consequences and reduce your protection under the Qld Home Warranty Scheme.**

EXTENSIONS OF TIME (EOTs)

The contract must state the Date for Practical Completion for your project, or how the date is to be determined (e.g. 180 days from commencement). The Act sets out circumstances in which a contractor may seek to extend this date (e.g. if you approve a variation to the contract which involves extra work, or the work is interrupted by more rain than could reasonably have been anticipated). The contractor must give you a written EOT claim which you should carefully consider (not unreasonably reject) and respond to promptly in writing. If you approve the claim, the Date for Practical Completion will be extended by the period claimed. If you do not approve the claim, the extension is deemed 'disputed'.

LIQUIDATED DAMAGES (LDs)

LDs are contractual payments to compensate a home owner for extra costs/losses they are likely to incur (e.g. extra rental costs) if the contractor fails to complete the work within the time allowed for in the contract (after allowing for legitimate extensions of time). Carefully consider what, if any, LD amount is appropriate for your project and ensure it is recorded in the contract.

PRACTICAL COMPLETION AND HANDOVER

You are not required to pay the final contract payment until all of the contracted work has been completed in accordance with the contract including any plans and specifications, all legal requirements, and either without any defects or omissions, or with only minor defects or minor omissions that will not unreasonably affect occupation. If you believe there are any minor defects or minor omissions, the contractor must give you a 'defects document' (listing agreed and non-agreed matters). This document should be compiled by you and the contractor during a handover inspection. Check your contract to see if it imposes any extra requirements on the contractor for practical completion.

WARNING: Strict timeframes apply for notifying QBCC about defects. For more information please refer to the Regulatory Guide on the following QBCC website address qbcc.build/rectify-building-work

IMPLIED WARRANTIES

Sections 19 - 26 of Schedule 1B of the Act set out statutory warranties deemed to be part of all regulated domestic building contracts, even if not stated in the contract. The *warranty period* is 6 years from completion, termination or cessation of the work for breaches resulting in structural defects; 1 year for all other breaches. Legal proceedings for any breach must be started within the warranty period or a further 6 months if the breach becomes apparent within the last 6 months of the warranty period.

FOR FURTHER INFORMATION

- Read the booklet, '*Domestic Building Contracts – General Information for owners and contractors*' on the QBCC website.
- Refer to the relevant legislation, Schedule 1B of the QBCC Act.
